

August 8, 2025

Mitsui Chemicals Crop & Life Solutions, Inc.

To Exhibit at TICAD Business Expo & Conference 2025

We are pleased to announce our participation in the TICAD Business Expo & Conference, which will be held from August 20 to 22, 2025, in Japan. This event is a concurrent event of the 9th Tokyo International Conference on African Development (TICAD 9), an international conference focused on the development of Africa. The Expo aims to connect Japan and Africa through business, investment, and innovation.

At our booth in the “Advancing Healthcare and Sanitation Standards” area, we will be showcasing VECTRON™T500, a novel solution we are introducing in the African region to fight against malaria. We invite all attendees of the exhibition to visit our booth and learn more about how VECTRON™T500 would contribute eradicating malaria in Africa. We look forward to your visit.
